Attn: John Ragland

Hi John,

As you know we have been purchasing equipment from your company for many years now and have been extremely please with the equipment received.

The equipment is exactly what we discussed. We also appreciate your ability to make fixtures for different applications. Having everything in one house helps us with our production making our job easier.

Thank you again for the fine work and service. Look forward to our next purchase from your company.

Sincerely,

Mike Kalamaras  
President-Howw
